

# Reaction HOB

Hang-On-Back Aquarium Power Filter

## Waterfall Style Circulation

The waterfall style flow helps diffuse CO<sub>2</sub> into the aquarium while also promoting healthy oxygen levels.

The adjustable water flow rate makes it easy to adapt the Reaction HOB to your aquarium.

## Dual Intake Design

The coarse sponge prefilter catches large debris and protects inhabitants.

Surface skimmer promotes better water circulation in aquarium while skimming off oily surface film.

## Streamlined Filtration

Medium-density sponges catch large debris from flowing into filter pads that further purify water from particulates.

Activated carbon and ceramic rings work to purify water before it is cycled back into the aquarium.

## The Right Filter for Your Aquarium

### Technical Specifications

Model	Dimensions	Flow Rate	Tank Size
HB-15	7" x 4" x 12" (18.4 x 9.8 x 30.1 cm)	80 GPH	Up to 20 gallons
HB-45	9" x 5" x 13" (23.5 x 11.8 x 32.5 cm)	130 GPH	Up to 40 gallons
HB-55	10.5" x 6" x 14" (26.9 x 16.2 x 36.3 cm)	190 GPH	Up to 50 gallons
