

Rimless Flat Panel

Reef-building made easy

Rimless Flat Panel

Reef-building made easy

Rimless Reimagined

The new JBJ Rimless Flat Panel is an all-in-one aquarium designed with the hobbyist in mind. It's easy to start reef-building with an integrated sump and included filtration media.

Our new streamlined design is engineered from solid glass and features stunning glass clarity. Available in 25, 45, and 65 gallon capacities.

Advanced Integrated Filtration

Dual overflow skimmers catch large debris from flowing into high-density micron socks that further filter water from particulates.

The standard 4-inch micron socks hold activated carbon and ceramic rings that work to purify water before it is cycled back into the aquarium.

Our unique baffling system is designed to maintain stable water levels in two columns that allow a protein skimmer and heater to be used.

High Gloss Cabinet Stand

The optional cabinet stand highlights your aquarium while elegantly concealing external equipment. The ventilated back panel allows for JBJ Arctica Chillers to operate comfortably.

Available in black or white high-gloss finishes, our cabinet stand is a perfect complement to the Rimless Flat Panel.

Tank Specifications

Model	Capacity	Glass Thickness	Dimensions	Weight
RF-25	25 gal (95 L)	8 mm (Low Iron)	18.5" × 18" × 18"	49 lb
RF-45	45 gal (170 L)	10 mm (Low Iron)	26.5" × 22" × 19"	88 lb
RF-65	65 gal (246 L)	10 mm (Low Iron)	36" × 21" × 20"	128 lb

Stand Specifications

Dimensions	Weight
18.5" × 18" × 36"	46 lb
26.5" × 22" × 36"	60 lb
36" × 21" × 36"	65 lb

Pump Specifications

Model	Power Consumption	Flow Rate
FP-750	12 W at max flow	198 gal/h
FP-1000 (2)	16 W at max flow	264 gal/h (2)
FP-1500 (2)	25 W at max flow	396 gal/h (2)
